Objective

Computer Science Engineering student at IIITDM Kancheepuram with strong interest in software development and problem solving. Passionate about building efficient systems using programming and data structures, and seeking internship opportunities to apply technical knowledge in real-world projects.

Education

Indian Institute of Information Technology Design and Manufacturing (IIITDM) Kancheepuram 2025 – 2029 (Expected)

B.Tech in Computer Science and Engineering

Sri Shirdi Sai Vidya Nikethan (CBSE) 91%

Class XII

Future Kids School (ICSE) 94%

Class X

Skills

- Programming: C, Python, Java, C++
- Concepts: Data Structures & Algorithms, problem solving skills
- Tools: Git, GitHub, VS Code

Projects

Banking System in C GitHub

- Developed a console-based banking system for account management and transactions.
- Implemented Hash Table with Linked List chaining for efficient storage and collision handling.
- Features include account creation, login authentication, PIN reset using DOB verification, deposits, withdrawals, and balance inquiry.
- Applied dynamic memory allocation and data structures for efficient system design.

Certifications

- AI Skills House Program (IICT Govt. of India)
- Google AI Essentials
- Google Prompting Essentials

Achievements

- JEE Main Rank: 22250 (CRL)

Extracurricular Activities

- Practicing Data Structures and Algorithms
- Exploring software development and system design
